

Technology Committee – October 7, 2019

The Technology Committee met on October 7, 2019. Mr. Hein, Director of Technology, provided the committee with an update on the work completed over the summer and stated that the K-12 deployment of devices went well at the beginning of the school year. Mr. Hein also provided the committee an overview of the protective measures taken by the district to prevent cyber threats. On Superintendent's Conference Day in September we trained our staff how to spot suspicious emails and what steps to take if one is sent to them. He explained that as we continue to learn more about how best to safeguard our systems, we will update the committee. The Middle School is working with the technology department and planning to launch a student help desk later this year. Mrs. Anderson will keep us advised. The next committee meeting is scheduled for December 2, 2019 at 3:30 p.m. in the high school library.
